BRIDGE PROBLEM OF ISLAND CREEK CALLS FOR EXPERT

Piles Down Twenty-five Feet
In Soft Mud and Are
Yielding.

Engineer Thinks Now Is Time
to Employ Man.

GENERAL COUNCIL MEETING

Through 25 feet of soft mud City
Engineer Washington has driven pil-
ing to strengthen the Fourth street
bridge over Island creek, and still
every time the pile driver strikes a
pile it sinks five inches.

Mr. Washington has advised that
the city employ a bridge expert to
take charge of the work, and in this
he was joined with the engineer for
the Nashville, Chattanooga & St.
Louis railroad, who declared the
Island creek bridge crossing pre-
sents a serious problem. As the new
bridge will be a costly structure, it
is expected to last practically for-
ever, and no mistakes must be
made.

When the city engineer found no
support for his piling he was more
than ever convinced that an expert
should be employed to come here
now, while the water is low. Instead
of waiting until high water next
spring, when he cannot judge of the
situation so well,

On his advice Mayor Smith called
the councilmen and aldermen as a
committee of the whole this after-
noon. As the committee could take
no decisive action and the matter
was urgent, Mayor Smith wrote out
a call for a special session, and the
two boards resolved themselves into
their proper organizations and took
up the bridge and the wharf ques-
tions.

City Engineer L. A. Washington
was authorized to employ Wilbur
Watson, an eminent bridge designer
of Cleveland, O., to assist him in
designing the new bridge to span
Island creek. Mr. Watson was for-
merly chief designer for the Osburn
Bridge company and has a national
reputation. He will be paid \$500
for his services or 2½ per cent.

An amendment was recommended
for the wharf ordinance, reducing
the free space to 303 feet. The
original free wharf was 423 feet,
but 120 of this is to be occupied by
the Thompson & Ester Sand and
Gravel company. The Ayer-Lord Tie
company's dry docks will occupy the
present space used by Thompson &
Ester. A rental price of \$1 per foot
will be charged for the 120 feet.

At the meeting were councilmen
Foreman, Hannan, Horton, Leigh,
McCarthy, Budde, Barnes and Alder-
men Stewart, Hank, Van Meter,
Larkey and Oehlschlaeger. Mayor
Smith had not issued a call, but it
became necessary before prompt ac-
tion could be taken in the bridge
matter. City Solicitor Campbell pre-
pared the amendment, which was
given first passage and second pass-
ages in double quick time.

Washington street. The house is oc-
cupied by J. W. Hubbard. Hose
companies No. 4 and 5, and truck
company No. 4, answered the alarm.
The fire was extinguished with a
small loss.

No Police Court Tomorrow.
There will be no session of police
court tomorrow. Police Judge Cross
will leave at 7:45 o'clock tomorrow
morning for Louisville to attend a
called meeting of the Great Chiefs of
the Great Council of Red Men, to be
held Sunday. Judge Cross is a mem-
ber of the board of appeals and will
be the only warrior from the local
tribe to be present.

The World's Best Medicine

MRS. JENNIE GARDNER

There is no time in the life of man or woman when Duffy's Pure Malt Whiskey will not help. Mrs. Jennie Gardner, one of our patients, is passing through woman's most critical period and she is enjoying the best of health.

In her letter she says: "With pleasure I allow my name and testimony to be used for the benefit of those who know not the merits of Duffy's Pure Malt Whiskey. I think it is the best medicine in existence. I am now passing through the most critical period of a woman's life (The Menopause or Change of Life). I am enjoying good health, better than for years and all through this wonderful elixir have suffered comparatively no inconvenience at all. This is remarkable, but nevertheless it is true. I could not do without Duffy's Malt. I expect to use it all my life." Mrs. Jennie Gardner, Monett, Mo.

The voluntary testimony received from our grateful patients is proof positive of the great medicinal qualities of

SPEAKERSHIP MIX AT SPRINGFIELD

"OLD GUARD" HOLDING BALANCE OF POWER

Compromise Between the Deneen Forces and the Stalwarts Is Alternative.

TO SHUN G. O. P. CAUCUS

Chicago, Nov. 11.—Complexities bid fair to snuff the election of speaker of the next Illinois house in a tangle similar to that which preceded the bipartisan alliance in 1909. Upon sifting up the results of the election the politicians discovered yesterday that enough leaders of the "old guard" have been returned to constitute a possible "balance of power." Eleven of them will be back at Springfield. The Republicans will have eighty-four members of the house. If the eleven mandarins refuse to go into caucus, as they did two years ago, the caucus selection for speaker will have no chance of election, inasmuch as it takes 77 votes for a majority unless a few votes come from the Democratic side. A deadlock would be the result, the breaking of which could be accomplished either through consultation or by bipartisanship.

Just what position the "old guard" will take is undecided as yet. Its members are silent on the question, but some of them have already indicated that they will not go into caucus in case the Deneen forces meet beforehand in a secret conference and pick the candidate for gavel busters.

The ultimate result foreseen by the politicians is a compromise between the Deneen forces and the "old guard" to vote for a speaker acceptable to both sides, or else the casting of a vote for a Democratic candidate by the "old guard."

Although Speaker Shurtliff has not definitely committed himself upon the subject he has convened but met to some of his friends that he will not seek the speakership.

Democrats See Hope.

The Democrats this time see the probabilities lying in the field between the Deneen men and the older element. As a mass they will not be ready or willing this time to vote for a Republican speaker, the fate that befell some of the members of the old bipartite combination being far in their memories and they are expected to vote to the last ditch for a Democrat, trusting that the fact of a majority side may lead some of the Republicans to give them votes enough to gain the gavel.

This time the reapportionment comes up as the matter of greatest concern to the professional politicians and the anxiety of both sides to con-

It is refined to a degree of absolute purity by a process only known to and used in Wesson Snowdrift Oil. It is purely vegetable, odorless, tasteless, and unapproached for healthfulness.

It is used by the leading caterers throughout the country, and is sold by the best dealers everywhere. Call for Wesson Snowdrift Oil, and beware of all suggested substitutes. Nothing else can possibly equal its results.

NEVER HAD ANY ITCHING.

After One Application of Postum, the New Skin Remedy.

Whenever eczema is present on body, limbs or scalp, the first demand is for something to stop the continual itching. This postum does "Never had any itching after the first application" says Mr. L. J. Brendlinger, Philadelphia.

In trying the sample of postum—which is mailed free to any one upon request by the Emergency Laboratories, 32 West Twenty-fifth street, New York City—it is best to use it on a small surface and compare in the morning with the surrounding skin not so treated, noting the vast improvement. Or watch its quick work in clearing the complexion (overnight), removing pimples, undue redness, rashes, eruptions, etc. Unless postum has been used the best means to rid oneself of a skin affection have not been employed. Postum has done the work in worst cases of eczema, acne, tetter, salt rheum, psoriasis, all forms of itch, etc., where relief could not be obtained by other means. Postum is sold in two sizes (trini, 50 cents; regular size, \$2) by all druggists, particularly Gilbert's and R. W. Walker Co's.

trol will lead to a great battle over the speakership.

Already the Deneen forces have several candidates in the field, among them George H. Hamilton of Watervale, Lucas L. Huett of Peoria, Homer J. Theo of Menard, Charles Adkins of Plott, William Lewis of LaSalle, J. Person of Willmette, Edward J. King of Galesburg, H. W. Wilson of Quincy, H. D. Kirkpatrick of Franklin and W. T. ApMadoc of Chicago. In the gossip yesterday it was rumored that Representative Lewis might be a compromise candidate.

Democratic Gains Low.

As the complete returns came pouring in yesterday they showed that the Democratic gains had been somewhat greater than even at first indicated.

The state ticket was plunged in doubt until last night, when complete returns came in from most of the counties. In Cook County Alpheus K. Hartley, Democrat, ran 15,523 votes ahead of Edward E. Mitchell for state treasurer. Conrad B. Hardwell, Democratic nominee for superintendent of public instruction ran 10,961 votes ahead of Francis G. Blair, Republican.

For university trustees the three Democratic nominees, A. L. White, John J. McGlynn and George T. Page ran ahead of the Republican candidates, Mrs. Mary E. Tracy, Otto W. Holt and William L. Abbott. The lowman on the Democratic ticket was 18,207 votes ahead of the high man on the Republican ticket.

All the spread gloom during the day at Republicans' state headquarters, but late in the night convincing proof came that the Republican state ticket had won by a comfortable majority.

The latest totals indicate that down town the Republicans rolled up votes enough to re-elect Blair by a small margin, while Mitchell's fate is still in doubt.

Barnes Talks of Victory.

"The forces which have working for an honest and efficient legislature," said Mr. Barnes, "have reason to feel highly gratified with what has been accomplished. Only a small minority of those who stood for corruption in the forty-sixth general assembly have been returned by their constituents, and this element will be so badly handicapped by the state-wide discredit cast upon it as to be practically harmless." Shurtliff, Leo O'Neil Browne, Brodwick and Wilson remain as unpleasant reminders of our state's disgrace, but they remain shorn of their power.

To fairly estimate, the victory which the reform forces have achieved it is necessary to remember what a tremendous advantage was given to the regular party organizations both at the primaries and the general election by the cumulative system of voting. They could act as one man, plumping their votes where they were most needed, and so elect their candidates. The reform element was, in almost every case, divided, and because of this division the bad men slipped in.

The party circle was another serious obstacle to the independent voter. From reports which came to me yesterday from a number of polling places, I found that many of our host citizens were ignorant as to the method of marking their ballots so that they could cast three votes for some one candidate for the legislature, especially when his name appeared outside their own party column.

The vast size of the blanket ballot was another very important factor in the defeat of independent candidates. It almost required an expert to make wise selections from the vast number of names presented, and the time required to do this discouraged many who might otherwise have attempted it.

Finally, the men whom the league condemned and tried to defeat made the fiercest fight of their lives; money was liberally used by them and every ounce of influence brought to bear to obtain their so-called vindication in the face of bitter popular opposition. A corrupt practices act would have helped the reform agencies in this particular.

In view of the tremendous Democratic landslide one would suppose that the Democratic houses would be bitterly lamenting the fact that they failed to follow the advice of the

Tomorrow's the Last Day

Legislative Voters' League and nominate three candidates for the general assembly in each legislative district. If our state had been divided into a single district three assembly districts, one to each senatorial district with a candidate from each party in every district, the Democrats would certainly have elected a larger number to the legislature and the result would have been more directly representative of the sentiment of the people.

"A constitutional amendment, placing Illinois in line with other states of the Union in reference to this matter, is one of the most important issues now confronting us. We cannot get good legislation without good legislators, and we cannot be assured of the nomination and election of good legislators under the present method of minority representation and cumulative voting."

See Reform Legislation.
After looking over the list of winners, the reform leaders saw excellent prospects of legislation in the next assembly providing for civil service extension, the initiative and referendum, and against corrupt practices, three propositions which were adopted on the little ballot. Inasmuch as the Republican party is pledged to a constitutional amendment abolishing minority representation, they also foresaw action in this direction.

Good Liver Remedy Free

When you suffer from any form of indigestion it is always well to take something for the liver, as usually the trouble lies there. If you are bilious, have a bloated feeling after eating, if you belch, if your skin is yellowish you may be sure it is liver trouble.

What you need is something to stimulate the liver and cause the gall glands so that they will aid in the digestion of your food. A very good remedy for this, and one highly recommended by those who have used it, is Dr. Caldwell's Syrup Pepeln, which you can obtain at any druggist at fifty cents or one dollar a bottle. But if you would like to try it first, send your address to Dr. Caldwell and he will promptly send you a free sample bottle.

Thousands of people first learned of this remarkable cure for stomach, liver and bowel trouble through a free sample. Mrs. Paul Lally of McLeansville, Ill., sent for one and is cured, and is open in saying that she will never take pills or strong cathartics again. Dr. Syrup Pepeln acts so mildly. Mr. W. H. Dill, the bootmaster at Saucier, Tenn., says he will never be without it again. No sick person can afford to ignore a remedy so highly endorsed as this. It is good for all the family from infancy to age, because it is mild, free from griping and yet prompty effective. Furthermore, results are absolutely guaranteed or money will be refunded.

Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the many advice on the subject in the hope of charge. All are welcome to write him. Whether for the medical advice or the free sample address Dr. W. H. Caldwell, 641 Caldwell building, McLeansville, Ill.

THERE'S POINT TO THIS TALK we have been making you about good clothes, in the price of which the "overhead expense" has been cut to the very marrow of the bone.

You see its this way: while we're only a step from Broadway, on North Third Street, that short distance means all the big difference between high rents—which YOU and other customers of Broadway stores pay—and our own comparatively modest expense from that source. And such rent as we do pay is shared by over a dozen different departments. That's true economy—and one of the best reasons why it PAYS TO BUY AT HARBOUR'S. Another good reason why it's money in your pocket to buy here is that we buy and sell strictly for cash. Real money has a tremendous power in the market in securing lowest prices. For instance, study these handsome

Griffon Clothes at \$15

Never have you worn more stylish clothes than these. The good tailoring which produces true, lasting styles is there—we see to that. When you see them you will agree that our boast that they fit beautifully is no idle one.

Never have you worn more substantial and dependable fabrics than those of which Griffon clothes are made. They're ALL PURE WORSTED—a compliment which can't be paid many a suit which brings twice the money. Yes, sir; you've paid ten to fifteen dollars more many a time for merely "all wool"—and "shoddy," the meanest and poorest thing the woolen trade knows is "all wool."

Now the whole point of this is well put in the words of a certain eminent rich man: "It's only the hopelessly poor who can afford to be indifferent to the cost of necessities." The minute a man starts to take account of what he gets for his dollar, he puts his foot on the ladder of success. Put your foot down today! Start to figuring!

Let your Thanksgiving suit be a \$15 Griffon—and line the pocket of the new suit with a crisp \$10 bill saved.

THE ANANIAS CLUB IN ACTION.

The Ananias club seems to have done quite as much as the Tammany club to bring about the result.

Analysis of the returns from normally Republican states do not sanction the expression "Democratic landslide," or give much encouragement to that party in 1912. Before the election we predicted Democratic victories in most of the states but doubted whether there would be sufficient gains to give that party the lower house of congress. We based our predictions on the Republican factional troubles and the satisfaction of the farmers with present conditions. We find that in New York and Ohio, where the greatest Democratic gains were made, they were due entirely to the Republican "stay-at-home" vote. Dix received in New York City no larger majority than Bird S. Coler, but on account of failure of Republicans to go to the polls, Stimson failed to meet that majority with a larger one up-state. In Ohio fully 200,000 Republicans stayed away from the polls, and the returns show that Harmon actually carried counties by increased majorities without receiving as large vote as he did two years ago. The congressmen who won, were in comparatively close districts, which the "stay-at-home" vote threw away.

The legislatures of the two states were likewise affected, while in New York questions of gambling laws, popular primary and corporation control wiped out party lines, just as the liquor question did in Ohio, Indiana, Nebraska and Tennessee. The Republicans in Ohio, too, were dissatisfied with their candidate for United States senator.

In Missouri, where a full vote was polled on account of the state-wide constitutional amendment, the Republicans gained five congressmen.

An interesting aftermath of the election is the condemnation which is owing to Roosevelt. Rural Republican papers in Ohio, Indiana and Illinois are blaming him for it all; though Roosevelt is as much a product of the political upheaval as the cause of it. In New York Roosevelt called all the politicians opposed to him names, which deburred them from aiding in electing the ticket; in Indiana he is reported to have called a judge a "jackass;" in Massachusetts he is threatened with a slander suit, and in Ohio he denounced Harmon as a crook. The popular verdict in every instance was against him.

Odd how the fortunes of politics change. When Roosevelt came home he was hailed by the radicals and yellow magazines as the savior of his country; he took precedence over the president on the front pages and became the burning issue in the political campaign. Some people took a delight in the comparative obscurity into which the shadow of Roosevelt threw President Taft. Now that the storm has passed, the same observers recognize Roosevelt as a cloud, and the smiling face of Taft as the sun, which was temporarily behind the cloud. Having allowed himself too prominent a place in the issues, and refused President Taft early credit for what was due him, Mr. Roosevelt must now stand for the odium of defeat.

Who can fail to admire the dignified poise of Taft through the triumph of his election, the abuse and misrepresentation of the yellow magazines, the preference of Roosevelt and the eradication of many discordant elements in the party?

Who can deny the political acumen he evinced from the beginning of the campaign for his election until the adjournment of congress. He was the originator of the tariff commission idea, the corporation publicity measure, the income tax, the maximum and minimum schedules, the extension of the powers of the interstate commerce commission and the systematic improvement of the waterways. He was the first to express disapproval of the tariff, saying it was not as good as he expected though the best ever framed, and he announced that he accepted it because it contained the maximum and minimum feature and the provision for a tariff com-

John Mack Denies Authorship.

Whatever hesitancy the people of Hickman county may have felt in supporting Senator McCreary over John K. Hendrick for governor is fast disappearing owing to the character of the attacks which Mr. Hendrick's friends are making upon Mr. McCreary. In a personal letter to the editor of the *Clinton Gazette* about the time he let it be known that he would be a candidate for governor, Mr. Hendrick expressed such warm personal regard for Mr. McCreary and was so sure that no estrangement could possibly arise between them in this campaign, though both were seeking the same high office, that we looked for an entirely different kind of campaign as between Mr. Hendrick and Mr. McCreary to the one that is being carried on by Mr. Hendrick's chief lieutenant and mouth-piece, Mr. John McLean of Murray, whose intemperate attacks on Senator McCreary will lose Mr. Hendrick friends wherever the Melton literature circulates. That this literature is given a broadcast circulation is due to the fact that Ben Johnson's campaign managers are looking after that. Mr. Hendrick is in this manner giving aid to Mr. Johnson, a man whom we have understood Mr. Hendrick to be unalterably opposed to. Mr. Hendrick may really be opposed to Johnson to the degree he has asserted, but it does not necessarily follow that Mr. Melton is of one mind with his chief, for we have no doubt that Mr. Melton prefers Johnson to McCreary. At any rate, the *Gazette*, which has always warmly supported Mr. Hendrick and thinks more of him today than any other public man in Kentucky, must decline to be used by the Johnson machine to defeat McCreary, which is the real purpose of the Hendrick candidacy as it is being used by Mr. Hendrick's professed friends and supporters.—*Clinton Gazette*.

mission. He has also set on foot investigations into the cost of conducting the departments of government, and so far reduced the annual expense of government ten millions.

Roosevelt dodged the tariff, threw it on Taft's administration and left for Africa. He returned to step in front of the president in the national election and got the hot end of it. Now Mr. Taft is going to Panama to look over the job, leaving Mr. Roosevelt to face the consequences of his effrontery.

Now, that the Democrats have the speakership and the majority, will they be so keen to take away the speaker's authority?

There is a certain element of good humor lacking in the debate between the *Smithland Banner* and the *Cadiz Record*.

The poultry exhibit on the front pages of the *Gibraltar* rural press, which arrived today, was not as large as we anticipated. Has it been so long since a Democratic victory was polled that the roosters got lost in the junk pile, or was not two days' notice sufficient time for a weekly paper to rise to the occasion?

LEAVE HENDRICK OUT OF IT.

Editorials from the *Clinton Gazette* and the *Calloway Gazette*, which are reproduced at the head of these columns today, in despite the lack of confidence of the press in the sincerity of politicians in Kentucky, and incidentally injustice is being done our fellow-townsman John K. Hendrick, who makes his flights in the open airways. The *Calloway Gazette* and the *Clinton Gazette*, both professed friendship for him in the gubernatorial contest; but some politicians have reproduced an editorial from the *Paris* (Tenn.) *Parolian*, written by John MacMelton of the *Calloway Gazette*, about J. C. W. Beckham, and with it an attack on McCreary, as if he had written both. The *Clinton Gazette*, insists that if Melton, who professes friendship for Hendrick, is using that method of attacking McCreary, then Hendrick's campaign must be in the interest of the Johnson faction. Melton replies this week, declaring that he is not the author of the McCreary attack, which relieved Mr. Hendrick and his friend of any connection with the scoundrel. It would require evidence, sufficient to convince an unprejudiced jury beyond a reasonable doubt, to make anyone, who knows John K. Hendrick, believe he is lending his good name to anybody else's candidacy.

The *Clinton Gazette* has "broke out in a fresh place." said it is opposed to John Hendrick because of the "intemperate attacks on McCreary by John McLean, Hendrick's chief lieutenant." This is certainly news to us and to our readers. We have not attacked Mr. McCreary in any way, and have the profoundest regard for him. Aside from the fact that we casually mentioned his age as a probable hindrance in a strenuous campaign against Republican nominee, only one other "attack" has appeared in these columns, and that was *clipped* from the same *Clinton Gazette* when it reprinted McCreary because of his alleged alliance with John Whalen, the Louisville boss. On Dec. 14, I thought we believed we did say that the Beckham crowd hoped to manage McCreary's administration and get him out. We expressed the belief that he would feel them. Surely, this cannot be construed as an "attack."

Perhaps an explanation is due. Editor Walker and others. A page of the *Paris*, Tenn., *Parisian* of 1908 has been reproduced in apparent facsimile and is being circulated over Kentucky, mailed from Dayton, Ky.

This page contains a four column write-up of "deceased Beckham," and credited to the editor of the *Caloway County Gazette*, the manager of the *Parolian*. We plead guilty insofar as that article is concerned and have nothing to retract. We stand pat and are still a-patting. But on that circular page is another two column article attacking Mr. McCreary and a Mr. Van Zandt, a candidate for Lieutenant governor. We have never heard before of Mr. Van Zandt until we read this circular. We disclaim responsibility for that editorial. It never appeared in the *Parisian*, as the files of that paper will show, is an invention and an underhanded attempt of some man or set of men to attribute expressions to us that evidently thought would have more effect coming from us than from him or them. So much for that.—*Clinton Gazette*.

Sergeant Blakely has received word that the Owensboro army recruiting station has been reopened with Sergeant Louis R. Jacobs, formerly at the Paducah office, in charge. Prices of Important Crops Averaged November 1 About Five Per Cent. Lower.

Washington, Nov. 11.—Bumper crops, led by corn with the greatest harvest ever gathered, were produced by the farmers of the United States during the present year. In a general review of crop conditions issued today, the bureau of agriculture says:

"The harvests of 1910 have been practically completed, with results exceeding the expectations during the growing period. Preliminary estimates have been made of the important crops, from which it appears that the aggregate production of crops in 1910 are approximately 7.6 per cent. greater than the crops of 1909—and about 9.1 greater than the average annual production of the preceding five years. Prices for important crops averaged on Nov. 1 about 5.4 per cent. lower than a year ago.

"The production of other crops in 1910, expressed in percentage of the average production in recent years (not compared with full crop) is estimated as follows:

"Peaches, 113.1; hops, 106.9; broomcorn, 105.4; cranberries, 105.4; sweet potatoes, 104.9; sorghum, 101.6; asparagus, 102.5; cabbage, 100.2; lima beans, 100.0; Kaffir corn, 99.1; peas, 98.9; beans (dry), 98.8; cantaloupes, 97.3; watermelons, 97.0; onions, 96.6; hemp, 95.6; tomatoes, 95.7; clever seed, 95.6; strawberries, 91.5; grapes, 88.2; apples, 95.8; millet seed, 85.7; raspberries, 78.0; blackberries, 76.6.

"The condition of other crops, compared with average conditions at or near time of gathering was as follows:

"Sugar cane, 101.1; rice, 102.3; sugar beets, 10.9; lemons, 93.3; cotton, 98.9; oranges, 95.5."

Little Miss Vorl's Chantecler Party. One of the most picturesque and charming children's party ever given in Paducah was Little Miss Eddie Eunice Vorl's Chantecler party this afternoon at the Woman's club house. The lovely little hostess, the only daughter of Dr. Victor and Mrs. Vorl's celebrated her sixth birthday by giving pleasure to her small friends.

The yellow motif was effectively enred out in the decorations which emphasized November being the tops month. Yellow chrysanthemums were the only flowers used throughout the rooms. A high embankment of palms and ferns were in the colonized hall. The table was veiled with an exquisite cover of Chinese linen embroidered in chrysanthemums. Two birthday cakes, gifts to the little honoree, adorned the table. They were led in yellow and held six small yellow candles.

The little hostess was a charming picture in a dainty white silk frock with yellow lace, gold slippers and yellow silk stockings. She welcomed her guests with sweet graces. It was a "play party," and there were many novel and pretty features to vary the afternoon. In the Grand March the Chantecler favors were distributed. They included pretty Chantecler hats, paper roosters to blow out, rooster whistles, turkey napkins in yellow rings, and various attractive souvenirs, gifts of the hostess to her friends in honor of the day they all love to celebrate.

"At night, after having coffee for supper, I could hardly sleep, and on rising in the morning would feel weak and nervous.

"A friend persuaded me to try Postum. My wife and I did not like it at first, but later when boiled good and strong it was fine. Now we would not give up Postum for the best coffee we ever tasted.

"I can now get good sleep, am free from nervousness and headache. I recommend Postum to all coffee drinkers.

LOWER HOUSE
OF DEMOCRATS

GAIN EIGHT IN SENATE, BUT
NOT HAVE CONTROL.

New Problem Is Up—What Will
Victors Do With Power Asked—
Titantic Flights

COMING REGARDED CERTAIN

Washington, Nov. 11.—A majority of sixty-two in the house and the gain of at least eight seats in the United States senate, with two others in doubt, are the results obtained by the Democrats at Tuesday's congressional elections, according to the later returns. As the situation now stands, it will be impossible for the Democrats to get control of the upper branch of congress except through the accident of death and the consequent creation of vacancies in states hit by the landslide.

Indiana, Maine, Missouri, Nebraska, New Jersey, New York, Ohio and West Virginia are the states which have elected Democratic legislatures that will choose successors to Republican senators. The margin on joint ballot in the Indiana legislature will not be great, and the Republicans were loath to give up hope, but the Democrats seem to have won just the same. Delaware's legislature is of doubtful complexion, with the chances favoring the Republicans. Montana still is in doubt.

The greater troubles of the battle-scarred Democratic party—and, goodness knows, they have been great enough for something like sixteen years—were inaugurated with the glorious victory of November 8. Mingled with the prayers of thankfulness that went up there arose from the temple supplications that brotherly love may prevail during the next house of representatives in Washington especially may be on its good behavior.

It is the added responsibility with respect to preparing for the next national campaign, now that the Democrats in congress have been transformed from a minority into a majority, that arouses some apprehension on the part of certain leaders who would like to guide the party to the topmost heights when the opportunity is presented in 1912. Champ Clark, who is slated for the speakership, already has sounded a "good behavior" warning, and he foresees a golden opportunity for constructive statesmanship which should be seized in order to demon-

strate to the country that the Democrats are fit to legislate wisely and profitably.

The ante-election diagnosis left absolutely no necessity for a post-mortem. Therefore the question of the hour is not, "How did it happen?" but, "What are the Democrats going to do with the fruits of their victory?" Will the majority in the house play "follow my leader" to a harmolous degree, or will that old constitutional tendency of Democrats to emulate the Kilkenny cats—in or out of power—operate to upset the hopes now so pronounced? And then, too, the old enemy is crushed but not vanquished; pitfalls will be laid for the statesmen-victors to entrap them if they be unwary. From the beginning of the next congress to the summer of 1912, and even during the continuance of Republican domination, there will be seen some of the finest strategic moving and some of the most artistic oratorical wrestling, with an occasional stop to score points with a vote, ever witnessed in this country.

The fight just concluded was a skirmish compared to what the next one will be. It will be the aim of Democratic leaders to retain their advantages so as to capture the presidency and the rest of the works two years hence; and just as soon as the Republicans get the dust out of their eyes they will start rebuilding their defenses with the hope of holding what they still have and getting back what has been lost.

Clark for Speaker.

As was to be expected, a crop of rumors has shot forth to the effect that Champ Clark, the present minority leader, will be opposed for the speakership. Some long distance trouble-makers forecast his defeat. As a matter of fact the selection of the Missourian to preside over the deliberations of the house in the sixty-second congress was practically settled as far as the old members were concerned last winter. There are jealousies, to be sure; but it is not likely the Democrats will permit them to come into play at the very drop of the hat, with all that is in sight, and even risk such a fusillade as would be precipitated by the turning down of Clark under the circumstances. In all probability the new members will be agreeable to the program outlined in advance. Furthermore, even if Clark were marked for slaughter, it is doubtful if there is another Democrat of speakership size entirely available and capable of mustering a conspicuous supporting force.

It need not be expected that the Democrats will do a whole lot of rules reforming beyond what already has been done in the house. They balked over taking the power to name committees away from the speaker when the fight against Cannonism occurred last spring, and the reason was that the influence of Champ Clark prevailed to a considerable degree; and Champ Clark was looking a little ahead to the time when he would take the mantle of "Uncle Joe." And so when the new congress meets there probably will be not along the absence of a fight over the speakership, but the possible rivals will be smiling at him in anticipation of the distribution of committee chairmanships which have not been at command since 1893.

Thus we may expect—in the days of blissfully anticipated reconstruction—to see young Mr. Fitzgerald of Brooklyn, whom they once thought of throwing out of the Democratic caucus because he saved Speaker Cannon's bacon at the time of the first rules fight and betrayed his party, walking away with the chairmanship of the committee on appropriations. Livingston, of Georgia, is the ranking member of the appropriations committee, but Livingston also helped to pull Cannon out of danger, and his constituents showed what they thought about that by replacing him with another Democrat at the primaries this year. Fitzgerald comes next on the list, and it may be put down that if

Clark be elected speaker and the rule of seniority is not followed with respect to that particular committee, there will be something started.

Seniority.

In all probability the rule of seniority will be followed to a considerable extent in making up the committee of the next house, although a change of party control arrives with it more or less. It has been a very active laborer on the appropriations committee. But he threw the switches and shake things up a bit. Strict application of the seniority idea, however, might give the south more chairmanships than the rest of the country—especially the east, which is inclined to feel very cocky over the extent to which it engineered the November landslide—would stand for without kicking.

William M. Howard, of Georgia, is regularly in line for the chairmanship of foreign affairs, and Adamson, of Georgia, may succeed Mann, of Illinois, as chairman of interstate and foreign commerce unless present members of the committee are disregarded and a chairman for this committee sought in another section entirely. The middle has had this particular chairmanship for many years.

Sizer, of New York, is practically

certain to become the head of the committee on military affairs, succeeding Hull, of Iowa, who "got his" in June instead of November. This will give Greater New York two pretty big chairmanships—two pretty big chairmanships—sends a solid Democratic delegation to the next house, which ought to count some. Fitzgerald, by the way, has been a very active laborer on the appropriations committee in the past, and political considerations have not prevented him from doing a lot of team work with Chairman Tawney, who will not be there to reciprocate next winter.

Most important of all in the next congress will be the chairmanship of the committee on ways and means. And prepare right now to get acquainted, along in the winter of 1912, with the Underwood tariff. A sure enough southern Democrat will be chairman of the ways and means committee if Clark is speaker. Oscar W. Underwood is his name, and he comes from way down in Alabama. He has been in the house for eighteen years, is now next in rank on the minority of the committee to Clark, and is deputy minority floor leader.

AN OLD-TIME PRESCRIPTION

In a modern product. From time immemorial sage and sulphur have been used for the hair and scalp. Almost every one knows of the value of such a combination for darkening the hair and making it grow. In olden times the only way to get a hair tonic of this sort was to brew it in the home fireplace, a method which was troublesome and not always satisfactory. Now-a-days almost every up-to-date druggist can supply his patrons with a ready to use product, skillfully compounded in perfectly equipped laboratories. Such a preparation is Wyeth's Sage and Sulphur, which is sold by all leading druggists for 50c, and \$1.00 a bottle, or which is sent direct by the Wyeth Chemical Company, 740 Garfield St., New York City, upon receipt of price.

OHIO SENATOR

WILL BE CHOSEN BY DEMOCRATS THIS YEAR

Plenty of Candidates for Position
Mentioned to Legislature.

Columbus, O., Nov. 11.—With the next Ohio legislature Democratic in both houses, the Democrats face a manysided contest to bestow the senatorial mantle of Senator Charles Dick, long the Lieutenant of Marcus A. Hanna and the latter's successor in the senate.

A half dozen Democrats have been mentioned as probable candidates. Jacob Kilbourne, of Columbus, from down-state confirmed the early reports that Congressman W. A. Hodenberg and Pleasant Chapman Post, who yesterday voted in Ohio for the first time in eight years; M. E. Ingalls, railway magnate of Cincinnati; former Gov. James Campbell of Dayton, endorsed two years ago by the Democratic state convention; Atlee Pomeroy of Canton, forced to run for the Lieutenant governorship this year with the consolation of a possible governorship should Governor Harmon be elected president; Frank Whittley, Socialist-Democratic mayor of Toledo; Edward W. Hanley of Dayton, chairman of the Democratic state central committee, who controls the Democratic machine, and John J. Lentz of Columbus, former congressman.

The last is an avowed candidate. McLean will put plenty of money into the fight.

BY MACHINERY

Leigh Company installs Machines in Plant That Will Increase Its Capacity.

The first machine for the manufacture of banana cases has been placed in the factory of the Leigh Banana Case company on South First street. The machine is being tested preparatory to the placing of the automatic machines in all of the factories of the company. In the preliminary tests the machine gave satisfaction, and there is every prospect that the machine will be a success.

The first cases were manufactured in Paducah by Mr. Charles Q. Leigh, and have been made by hand. The machines will make the work more rapid and the output will be larger. The local factory is in charge of Mr. D. F. Staff, and further improvements will be made in the next few weeks. A boiler will be installed for the purpose of heating the building and to furnish steam for the purpose of sucking the wood pliable. The factory has about 20 people at work and the business is increasing rapidly.

*Re-elected.

Chicago, Nov. 11.—Ten of the Illinois seats in the national house of representatives, and possibly an eleventh, will be occupied by Democrats in the Sixty-second congress.

As the full pollen returns came in yesterday they showed that the Democrats had gained three of the ten Cook county districts and the Peoria district downstate. In addition Congressman William W. Wilson, in the third district, won by so small a figure that the Democrats will call for a recount of the ballots and will start a contest in the interests of Fred J. Crowley. Wilson is basking on his eyelashes, as it were. His plurality is 26.

On the face of the early pollen returns Crowley appeared to have won by 62 votes, but a missing precinct was discovered that wiped out Crowley's advantage and put Wilson in the lead.

Democrats Plan Contest. The Democratic managers have appointed a committee composed of lawyers which will take charge of the contests.

Congressmen Madden, Mann, Wilson and Foss were the only Republicans members from Cook County who survived the battle at the polls, and last night there was talk that a recount would be asked for in the Foss as well as the Wilson district. In the Cook County end of the tenth district Foss won over Richard J. Flanagan by 1,450 votes. Lake county swelled his lead to 2,706, which tended to discourage the contest talk.

In the ninth district Lynden Evans, Democrat, won over Frederick H. Ganssberg, Republican, by 431, but there is no talk of calling for a recount.

The complete unofficial returns from down-state confirmed the early reports that Congressman W. A. Hodenberg and Pleasant Chapman Post, who yesterday voted in Ohio had won in their Egyptian districts, and that Congressman Joseph Graff had been defeated in the Peoria district.

In the ninth district Lynden Evans, Democrat, won over Frederick H. Ganssberg, Republican, by 431, but there is no talk of calling for a recount.

NEW BRIDGE DEDICATED.

Governors Badley and Deneen officiate at St. Louis.

St. Louis, Nov. 11.—Gov. Bradley, of Missouri, and Gov. Deneen, of Illinois, dedicated the Illinois traction system's new bridge over the Mississippi river here today in the presence of 3,000 invited guests. Archbishop J. J. Glennon of St. Louis blessed the new structure, which is known as the McKinley bridge, and Dean C. K. Davis, of the Episcopal church, delivered the In-

Louisville, Ky.—The campaign which J. Frank Taylor, Collector of Customs, has been making against violators of motorboat laws in Louisville harbor has not only had a salutary effect on owners of these boats, but has resulted in a snug sum for the government in the way of fines.

In all about 30 motorboat owners have been arrested and fined, the amount assessed reaching \$3,000. A fine of \$100 was imposed in each case.

Mr. Taylor has notified owners of the offending craft that they may appeal from his decision in their cases to the secretary of the department of commerce and labor, at Washington. However, these appeals must be taken through the collector here. Government inspectors continue to inspect the river for offenders, and it is seldom now that a boat is seen on the river without displaying the proper signals and lights.

With a tow of logs for the Ayer & Lord line company, the towboat Pavonia arrived out of the Tennessee river yesterday afternoon. She left for return trip this afternoon.
